

# Super Flexline

# Clear-flow

Providing the Complete Service...

## The Super Flexline

- Ideal for high performance and extra deep-lift sewer cleaning
- Combined suction and jetting with twin pumps
- Movable partition dividing the tank into two sections of varying size

A combined suction and jetting machine with the added benefit of twin pumps for extra deep-lift or high performance situations. This unit can be specified with an overpump facility to enable efficiencies by negating the requirement for additional tankers in some operational situations and increased site performance in prime moving situations.

<b>TANK CAPACITY</b>	<b>JETTING RATE</b>
<ul style="list-style-type: none"> <li>• 3000 gallons</li> </ul>	<ul style="list-style-type: none"> <li>• 100 gallons / min at 3000 psi &amp; 12 gallons /min at 3700 psi</li> </ul>
<b>WEIGHT</b>	<b>HIGH PRESSURE PUMP TYPE</b>
